Signature Talks

01 - Small Steps, Big Momentum

Why Leaders Stall in Times of Change, and How to Move Anyway

Grounded in applied economics and behavioral research, this keynote uses the Petite Practice® framework to close the gap between knowing what to do and actually doing it.

Your audience will: understand the data behind small actions and take home three shifts they can implement before the day is over.

02 - Own the Room

How to Communicate with Confidence When the Stakes Are High

For corporate leaders and managers who need to speak up, push back, and lead high-stakes conversations without losing presence.

Your audience will: walk away with a repeatable framework for high-stakes communication and the executive presence to be heard the first time, not the third.

03 - The Quiet Authority

Why the Loudest Woman in the Room Is Rarely the Most Powerful

For women in leadership ready to build influence the way it actually compounds: through clarity, consistency, and conviction. Drawing on Dr. Christiane's H.O.M.E. framework.

Your audience will: learn how to lead with presence instead of performance and walk away with a framework for building authority that compounds over time.
